

CORPSE STORAGE RACK / SHELF

Corpse Storage Rack / Shelf

The portable mortuary rack is ideal for a variety of cadaver storage applications.

It is more compact than conventional cantilever storage units allowing for greater storage capacity without increasing space.

MOSKITO4

MOSKITO12

Standard feature

- It can be assembled by the user.
- Unit is fabricated from heavy gauge stainless steel.
- Casters all with brake mechanism, allowing for easy movement
- Roller assemblies mounted in each bay make loading and unloading the cadaver tray easy
- Designed for use with the stainless steel cadaver tray

Optional feature

- Custom-made height and width is accepted.
